

— Step 7: Costing Base Units —

- **Navigation Path:** settings -> finance settings -> Costing unit -> click +

The screenshot shows a web-based interface for adding a costing unit. The dialog box is titled 'Adding' and contains the following fields:

- Costing Unit No.**: A text input field with the placeholder 'Costing Unit No.'
- Description**: A text input field with the placeholder 'Description'
- Factory**: A dropdown menu with the placeholder 'Select Factory Name' and a blue arrow icon.
- Company**: A dropdown menu with the placeholder 'Select Company Name' and a blue arrow icon.
- Currency Code**: A dropdown menu with the placeholder 'Select Currency' and a blue arrow icon.

At the bottom right of the dialog box, there are two buttons: 'Cancel' and 'Confirm'.

- **Purpose:** Dictates the standard batch or unit size used by the engine when calculating manufacturing and valuation estimates.
- **Data Entry Values:**
 - **Costing Unit Name:** Per Single Piece
 - **Description:** Standard costs are managed and updated per individual physical piece.

User Action: Click **Save/Submit** to record the unit size.
