

— Step 52: Inventory Stock Movement Categories —

- **Navigation Path:** inventory & warehouse -> master data -> Stock Movement Type -> click +

The screenshot shows a web application interface for COSMICNEXT. A modal dialog titled 'Adding' is open, allowing the user to create a new Stock Movement Type. The dialog has three input fields: 'Stock Movement Type' (placeholder: 'Enter stock movement type'), 'Category' (placeholder: 'Category'), and 'Description' (placeholder: 'Description'). At the bottom right of the dialog are two buttons: 'Cancel' and 'Confirm'. The background shows the application's navigation menu with options like Procurement, Inventory, Manufacturing, Logistics, Finance, and Orders, and a top header with tabs for TRANSACTIONS, PLANNING, and MASTER DATA.

- **Purpose:** Sets the general ledger posting rules that dictate balance sheet shifts when material moves between storage spaces and shop floors.
- **Data Entry Values:**
 - **Movement Type Code:** MV-ST-261
 - **Category:** Goods Issue for Manufacturing Order
 - **Description:** Deducts raw components from warehouse stock and records their exact financial value to Work in Progress (WIP).

User Action: Click **Save/Submit** to lock the stock transaction rule.
