

— Step 53: Logistical Document Handlers —

- **Navigation Path:** inventory & warehouse -> master data -> Order Type -> click +

The screenshot shows the COSMICNEXT application interface. A modal window titled 'Adding' is open, allowing the user to create a new Order Type. The modal contains two input fields: 'Order Type' with a placeholder 'Enter order type' and 'Description' with a placeholder 'Description'. At the bottom right of the modal are 'Cancel' and 'Confirm' buttons. The background shows the application's navigation menu with options like Procurement, Inventory, Manufacturing, Logistics, Finance, and Order Management. The user's name 'robert baratheon' is visible in the top right corner. A copyright notice 'Copyright © 2026. By Cosmic Next' is at the bottom of the page.

- **Purpose:** Establishes data processing guidelines for delivery documents, allowing different management for standard wholesale and express shipments.
- **Data Entry Values:**
 - **Order Type Code:** OT-STD-ORDI
 - **Order Type Description:** Standard Distribution Fulfillment Order

User Action: Click **Save/Submit** to create the fulfillment document class.
