

— Step 62: Logistical Constraint Definitions —

- **Navigation Path:** Logistics & Transport -> master data -> Transportation Constraint -> click +

The screenshot shows the 'New Transportation Constraint' form within the COSMICNEXT Supply Chain application. The interface includes a top navigation bar with 'TRANSACTIONS', 'PLANNING', and 'MASTER DATA' tabs, and a user profile 'robert baratheon'. A left sidebar lists various supply chain stages: Procurement, Inventory & Warehouse, Manufacturing, Logistics & Transport (highlighted), Finance & Costing, and Order-to-Cash. The main form area is titled 'New Transportation Constraint' and contains several input fields: 'Transportation Constraint Code', 'Vehicle No.' (a dropdown menu), 'Total Capacity', 'Allowed Capacity', 'Dimensions', 'Constraints Status' (a dropdown menu set to 'Active'), 'Carrier Assignment' (a dropdown menu), and 'Description'. At the bottom right of the form are 'submit' and 'cancel' buttons.

-
- **Purpose:** Enforces legal maximum payload caps on vehicle dispatches to safeguard fleet assets and maintain compliance.
- **Data Entry Values:**
 - **Transportation Constraint Code:** TC-MAX-10TON
 - **Vehicle No:** [Dropdown Selection] Select VEH-TRUCK-04 (Created in Step 57)
 - **Total Capacity:** 10,000 kg
 - **Allowed Capacity:** 9,500 kg (Includes a built-in safety cushion)
 - **Carrier Assignment:** [Dropdown Selection] Select CA-DHL-MIDWEST (Created in Step 61)
 - **Constraints Status:** Active

User Action: Click **Save/Submit** to lock the logistical limit boundary.
