

— Step 36: Financial Transaction Tax Rules —

- **Navigation Path:** settings -> Order Config -> tax code -> click add tax code

The screenshot displays the COSMICNEXT Supply Chain interface. A modal window titled 'Tax Code' is open, allowing for the configuration of tax rules. The modal contains the following fields:

- Tax Code:** A text input field.
- Government Tax Code:** A text input field.
- Tax Percentage (%):** A text input field with the value '0'.
- Description:** A larger text input area.

At the bottom right of the modal are 'Cancel' and 'Save' buttons. In the background, the main application menu is visible on the left, and a sidebar on the right shows the 'Add Tax Code' button and a 'Settings' section.

- **Purpose:** Configures tax rates applied to items on procurement and commercial sales documents.
- **Data Entry Values:**
 - **Tax Code:** TX-US-OH10
 - **Description:** Ohio Standard Sales Tax
 - **Tax Rate (%):** 10
 - **Government Tax Code:** Sales Tax Payable

User Action: Click **Save/Submit** to write the calculation rate.
