

— Step 16: Source Document System Types —

- **Navigation Path:** settings -> Global attributes -> Source Document Type -> click +

The screenshot shows the COSMICNEXT application interface. A modal dialog titled "Adding" is open, allowing the user to create a new Source Document Type. The dialog contains two input fields: "Source Doc Type Code" with a placeholder "Enter code" and "Description" with a placeholder "Description". At the bottom right of the dialog are "Cancel" and "Confirm" buttons. The background shows a sidebar with navigation links: Procurement, Inventory, Manufacturing, Logistics, Finance, and Orders. The top right of the application shows the user's name "robert baratheon" and a close button for the dialog. A copyright notice "Copyright © 2026. By Cosmic Next" is visible at the bottom of the page.

- **Purpose:** Programs the system engine to recognize which transactional documents are legally permitted to generate downstream warehouse demand.
- **Data Entry Values:**
 - **Document Type Code:** SDT-SO
 - **Description:** Customer Sales Order

User Action: Click **Save/Submit** to record the source document type.
