

— Step 19: Warehousing Type Frameworks —

- **Navigation Path:** inventory & warehouse -> master data -> warehouse type -> click +

The screenshot shows the COSMICNEXT application interface. A modal dialog titled "Adding" is open, allowing the user to create a new Warehouse Type. The dialog has two input fields: "Warehouse Type" and "Description". The "Warehouse Type" field contains the text "Warehouse Type" and the "Description" field contains the text "Description". At the bottom right of the dialog are two buttons: "Cancel" and "Confirm". The background shows the application's navigation menu with options like Procurement, Inventory, Manufacturing, Logistics, Finance, and Order Management. The user's name "robert baratheon" is visible in the top right corner. The footer of the application states "Copyright © 2026. By Cosmic Next".

- **Purpose:** Standardizes inventory movement logic (such as FIFO or LIFO structures) by building purpose-driven classifications.
- **Data Entry Values:**
 - **Warehouse Type Code:** WHT-RM
 - **Description:** Raw Material Inbound Storage

User Action: Click **Save/Submit** to establish the storage strategy.
