

— Step 24: Material Demand Categorization —

- **Navigation Path:** settings -> Logistics Config -> Demand Category -> click +

The screenshot shows a web application interface for COSMICNEXT. A modal dialog titled "Adding" is open, allowing the user to configure a new Demand Category. The dialog has three input fields: "Demand Category" with a placeholder "Enter demand category", "Description" with a placeholder "Description", and "Status" with a dropdown menu currently showing "Active". At the bottom right of the dialog are "Cancel" and "Confirm" buttons. The background shows a sidebar with navigation links: Procurement, Inventory, Manufacturing, Logistics, Finance, and Orders.

- **Purpose:** Sets the priority tiers that the allocation engine follows when distributing components during sudden shortages.
- **Data Entry Values:**
 - **Demand Category Name:** Commercial Sales Demand
 - **Description:** High priority

User Action: Click **Save/Submit** to secure the priority rule.
