

— Step 18: Logistical Vehicle Classifications —

- **Navigation Path:** settings -> Logistics Config -> Vehicle Type -> click +

The screenshot shows the COSMICNEXT application interface. A modal dialog titled "Adding" is open, allowing the user to create a new vehicle type. The dialog has two input fields: "Vehicle Type" with a placeholder "Enter vehicle type" and "Description" with a placeholder "Description". At the bottom right of the dialog are "Cancel" and "Confirm" buttons. The background shows the application's navigation menu with options like Procurement, Inventory, Manufacturing, Logistics, Finance, and Order Management. The user's name "robert baratheon" is visible in the top right corner. A copyright notice "Copyright © 2026. By Cosmic Next" is at the bottom of the page.

- **Purpose:** Configures structural baseline constraints for transportation assets (weight and volume bounds) used in freight scheduling.
- **Data Entry Values:**
 - **Vehicle Type Code:** VTYP-HGV
 - **Description:** Heavy Goods Flatbed (10-Ton)

User Action: Click **Save/Submit** to record the vehicle type limits.
