

— Step 22: Warehouse Bay Storage Coordinates —

- **Navigation Path:** inventory & warehouse -> master data -> Warehouse Bay Location -> click +

The screenshot shows a SAP 'Adding' form for 'Warehouse Bay Location'. The form is titled 'Adding' in blue. It contains the following fields:

- Warehouse Bay Location Code:** A text input field with the placeholder 'Enter code'.
- Warehouse Bay Location Name:** A text input field with the placeholder 'Enter name'.
- Warehouse No.:** A dropdown menu with the placeholder 'Select Warehouse Number'.
- Company Name:** A dropdown menu with the placeholder 'Select Company Name'.
- Description:** A text input field with the placeholder 'Description'.
- Status:** A dropdown menu with the placeholder 'Active'.

At the bottom right of the form, there are two buttons: 'Cancel' and 'Confirm'.

- **Purpose:** Defines discrete physical rows or bins inside your main warehouse infrastructure for high-accuracy tracking.
- **Data Entry Values:**
 - **Bay Location No:** BAY-A1-ROW3
 - **Warehouse Name:** *[Dropdown Selection]* Select Midwest Regional Distribution Center (Created in Step 20)

User Action: Click **Save/Submit** to map the physical bay coordinate.
