

— Step 61: Freight Carrier Assignment Matrices —

- **Navigation Path:** Logistics & Transport -> master data -> Carrier Assignment -> click +

The screenshot shows the COSMICNEXT application interface. The top navigation bar includes the COSMICNEXT logo, a menu icon, and tabs for TRANSACTIONS, PLANNING, and MASTER DATA. The user's name, robert baratheon, is displayed in the top right corner. A sidebar on the left lists various modules: Procurement, Inventory, Manufacturing, Logistics, Finance, and Order Management. The main content area displays a modal window titled 'Adding' for creating a new Carrier Assignment. The form contains the following fields:

- Carrier Assignment Number:** A text input field with the placeholder 'Carrier Assignment Number'.
- Carrier:** A dropdown menu with the placeholder 'Select Carrier Name'.
- Mode Route:** A dropdown menu with the placeholder 'Select Mode Route Name'.
- Description:** A text input field with the placeholder 'Description'.

At the bottom right of the modal, there are two buttons: 'Cancel' and 'Confirm'.

- **Purpose:** Formally connects a certified transport provider to an active shipping lane to handle designated regional routes.
- **Data Entry Values:**
 - **Carrier Assignment Number:** CA-DHL-MIDWEST
 - **Carrier:** *[Dropdown Selection]* Select DHL Global Forwarding (Created in Step 56)
 - **Mode Route:** *[Dropdown Selection]* Select Midwest Express Delivery Corridor (Created in Step 60)
 - **Description:** Primary freight contract for Ohio wholesale customer distribution.

User Action: Click **Save/Submit** to publish the lane assignment.
