

#### — Step 4: Cost Center Categories —

- **Navigation Path:** settings -> finance settings -> CC Category -> click +

The screenshot shows a web application interface for COSMICNEXT. A modal dialog titled "Adding" is open, allowing the user to create a new Cost Center Category. The dialog has three input fields: "Cost Center Category" with a placeholder "Enter cost center category", "Description" with a placeholder "Description", and "Status" with a dropdown menu currently set to "Active". At the bottom right of the dialog are two buttons: "Cancel" and "Confirm". The background shows a sidebar with navigation links: Procurement, Inventory, Manufacturing, Logistics, Finance, and Order Management. The top right of the page shows the user's name "robert baratheon" and a dropdown arrow.

- **Purpose:** Sets up structural grouping headers for overhead divisions (like production vs. administration) prior to creating physical cost nodes.
- **Data Entry Values:**
  - **CC Category Code:** CAT-PROD
  - **Description:** Automated industrial spaces and direct factory floor operation zones.

**User Action:** Click **Save/Submit** to preserve the category.
